

Chamberlain's Nursing Programs Transcript

Introduction

Narrator: Throughout our long history, Chamberlain has maintained a proud tradition of academic excellence. Multiple points of entry allow students to earn degrees at the baccalaureate, master's, and doctor of nursing practice levels. Programs vary not only in points of entry, but also in number of years in the program, prerequisite coursework, and types of courses found in each program, as well as in the proficiency level acquired. The following information will introduce you to Chamberlain's pre and postlicensure programs.

Reflection

Narrator: Understanding the role of faculty as facilitators of the learning process at various levels of the curriculum, and in various types of programs, is foundational for all aspects of effective teaching. As you explore Chamberlain's curricula, reflect on the following questions about your course as it relates to the curriculum in which you are teaching.

Menu

Narrator: Select a Chamberlain nursing program to explore.

BSN

Narrator: Chamberlain's Bachelor of Science in Nursing (BSN) degree program enables students to earn their BSN degree in as few as three years of year-round study. Our BSN degree program is available at more than 19 locations across the country. Click on the tabs to learn more about the BSN curriculum and resources.

RN-to-BSN

Narrator: Chamberlain's RN-to-BSN online option enables students to earn their BSN in as few as 3 semesters. Click on the tabs to learn more about the RN-to-BSN curriculum and resources.

RN-BSN to MSN

Narrator: Chamberlain's RN-BSN to MSN Online Option enables students to earn a BSN and MSN together. Students are able to meet program outcomes for the BSN degree through completion of the BSN curriculum, with 6 alternate credit hours of select MSN coursework. Click on the tabs to learn more about the RN-BSN to MSN curriculum and resources.

MSN

Narrator: Chamberlain's online Master of Science in Nursing (MSN) degree program enables students to earn a MSN degree in one of five nursing specialties. Click on the tabs to learn more about the MSN curriculum and resources.

Graduate Certificate

Narrator: Chamberlain's online Graduate Certificate Program enables MSN-prepared nurses to enhance their expertise to meet critical areas of need in the key specialties of nursing education and informatics. Click on the tabs below to learn more about the Graduate Certificate curriculum and resources.

DNP

Narrator: Chamberlain's post-master's Doctor of Nursing Practice (DNP) program enables registered nurses and advanced practice registered nurses to earn a DNP degree through two specialty tracks: Advanced Practice Leadership and Healthcare Systems Leadership. Click on the tabs to learn more about the DNP curriculum and resources.

Your Course

Narrator: Understanding the placement of your course in the curriculum is important, especially as it relates to the teaching and learning experiences needed for students to achieve course and program outcomes.

Chamberlain's Curricula

Narrator: Across degree programs, courses are developed to reflect contemporary nursing standards, criteria for accreditation, and professional practice needs of potential employers. Chamberlain's curricula are systematically built on cascading concepts: each becoming more specific and detailed.

Mission

Narrator: Chamberlain's Mission drives all curricular components. Our mission is to provide a superior nursing education experience distinguished by academic excellence, innovation, integrity, and world-class service. We are committed to graduating compassionate, ethical, and knowledgeable nurse leaders who are empowered to transform healthcare.

Philosophy

Narrator: Chamberlain's mission, vision, and values, embodied in Chamberlain Care and Master Instruction pedagogy, establish a philosophical framework that guides the direction and goals of the College, and forms a culture of caring that supports and recognizes scholarly teaching.

Program Outcomes

Narrator: Program outcomes are mission-driven statements that describe expected achievements of graduates based on professional nursing standards.

Course Outcomes

Narrator: Course outcomes chart a sequential plan of development for the knowledge and competencies needed to achieve program outcomes. Course outcomes are behaviorally anchored, student-centric, and measurable, and are used to guide content and evaluate student learning.

Concepts & Activity

Narrator: Course learning activities support student success in meeting course outcomes, and, ultimately, program outcomes.

Wrap Up

Narrator: Across programs, faculty are provided a full assortment of resources to do their best work. Online courses are equipped with Sidebar, which enables faculty to make suggestions and discuss teaching strategies with other faculty. Faculty Collaborative Shells foster regular and ongoing collaboration between faculty and course designers to review the course syllabus, instructional design, and pedagogical approaches of each course. These resources enhance the context, organization, and culture of the learning environment, and your role guiding students as they grow toward professional nursing. Your contributions in providing teaching excellence for students are invaluable to our mission of graduating extraordinary nurses.
